

## Arizona Report of Public Agency Performance on Suspension/Expulsion Rates for Students with Disabilities

### Indicator 4: Suspension/Expulsion Rates

Percent of PEAs identified by the State as having a significant discrepancy in the rates of out-of-school suspension or expulsion of children with disabilities for greater than 10 days in a school year.

#### Measurement

The data are reported to the ADE/ESS by each public education agency (PEA) in the State in an annual report. Arizona defines significant discrepancy for suspension/expulsion to be 10 or more students suspended for longer than 10 days and greater than 5% of the special education population of the PEA.

#### Explanation of Indicator

The data reported below indicate the PEAs that reported suspending or expelling any student with a disability for longer than 10 days in the school year 2007–2008.

Exceptions:

- PEAs that are not on the list reported they did not expel or suspend for longer than 10 days any student with a disability.
- PEAs that are listed with an asterisk (\*) did suspend students with disabilities but:
  - The number of students with disabilities enrolled in the school was less than 10, or
  - The number of students with disabilities who were suspended was less than 10.

In these instances, the data are not reported to ensure confidentiality.

All data are reported for school year 2007–2008.

**State Target** for SY 2007–2008: 1.5 % of the PEAs in Arizona have suspension rates > 5% of their population of special education students. The target for each PEA is ≤ 5%.
